Start optimization loop
Assessing your current environment teams and optimization loop
Assess your environment
Assess your teams
Assess your optimization loop
Establishing your optimization requirements and goals
Define your optimization requirements
Can you set measurable goals?
NO
YES
Set measurable goals
Optimizing your environment and training your teams
Measure your environment, teams and optimization loop
Analyze data
Did you achieve all the goals?
NO
YES
Are the goals achievable?
NO
YES
Optimize your team and environment
Did you achieve all the goals?
NO
YES
