

# Supporting EU financial institutions with ECUC Checklist mapping

Google Cloud continues to build on initiatives like our annual [CCAG audit](#) to expand our support of our highly regulated financial services customers in the EU. As part of our ongoing support, we've evaluated our approach under the [European Cloud User Coalition](#) (ECUC) Checklist for Cloud Service Providers (CSPs) and prepared a [mapping](#). This ECUC Checklist mapping gives customers an overview of our compliance controls against the Checklist's **five key** domains.

Privacy

Security

Governance and  
Regulation

Contractual  
Clauses

Portability

## How we work with the ECUC

Google Cloud has been in touch with the ECUC since it was formed. We appreciate the interaction and value the open dialogue fostered by the ECUC between financial institutions, cloud service providers, and regulators in Europe.

We are particularly appreciative for the opportunity to provide feedback on the development and direction of both the [ECUC Position Paper](#) and the [ECUC Checklist](#). Google Cloud **shares the ECUC's goal** of enabling the financial sector in Europe to adopt public cloud **compliantly and at scale**, and we are proud to have contributed to this important work.

## What's the ECUC?

The [European Cloud User Coalition](#) (ECUC) was formed in 2021 and has **25 members** across **nine countries** in Europe.

Together ECUC promotes compliant use of public cloud in the EU financial industry through:

- Technology standardization
- Developing common solutions
- Open dialogue with cloud service providers (CSPs) such as Google Cloud

## What customers are saying

*"Google Cloud has demonstrated a strong commitment to understanding and addressing the requirements within the ECUC Checklist."*

- Christian Weltermann, **Vice President BDAA, Commerzbank** as member of the ECUC

*"Leveraging cloud technology for us is a key objective of our digital transformation. We thus appreciate that our partner Google Cloud as a leading CSP is supporting the objective of the ECUC on the compliant adoption of public cloud in the Financial Industry."*

- Michael Girg, **Chief Cloud Officer, Deutsche Börse** as member of the ECUC
