

Apigee Edge Cloud PCI Compliance Pack

Description

Apigee Edge Cloud PCI Compliance pack delivers PCI (Network Provider/Transmitter) compliant API and app infrastructure.

Key Features

- Apigee Edge API Services is certified for PCI compliance Level1.
 - In conjunction with the PCI configuration guide, provides a runtime environment that meets the current requirements of PCI DSS v3.2.
 - Provides support for customer PCI audits via Apigee Attestation of Compliance (report from PCI audit that's shared with customers).
-

Deployment

- Hosted multi-tenant cloud
- Available in the following regions:

Americas	Europe	Asia Pacific
US - East	EU - Ireland	AP - Australia
US - West	EU - Frankfurt	AP - Singapore
SA - Brazil	EU - London	AP - Japan
US - Central	EU - Belgium	AP - India
Canada - Montreal	EU - Finland	AP - Hong Kong

Limitations

- Compliance applies to API services only. Analytics services, Developer services, and Monetization are not in scope for compliance.
 - eCHD passed via the URI is not compliant.
-

The above represents current Apigee Edge specifications, and Apigee reserves the right to change features and functionality and the corresponding specifications in this sheet. The latest spec sheet may be found at <http://apigee.com/about/documents/apigee-specification-sheet-current>, and any updated specifications will be deemed substituted for the above upon their being posted/made accessible at the foregoing location.

Performance throughput will vary based on different API proxy processing factors.
