

Edge Cloud - Edge Org Pack (125, 250, 500, 1250)

Description

For additional Organization and 3 environments for Edge.

Please see the Apigee Edge specification for further product details for Organization and Environment definitions.

Key Features

- Ability to provide logical separation with Apigee Edge Organization or Environment for a team or new business unit for API management.
-

Deployment

- Hosted multi-tenant cloud
 - Deployed on a per region basis
-

Limitations

- Respective quarterly API call traffic limits and overages still apply for Edge (125, 250, 500 or 1250)
 - Not configurable by customer. Customer needs to contact or request support at the time of provisioning.
 - Data migration services not directly required for the activation of this service are not included.
-

The above represents current Apigee Edge specifications, and Apigee reserves the right to change features and functionality and the corresponding specifications in this sheet. The latest spec sheet may be found at <http://apigee.com/about/documents/apigee-specification-sheet-current>, and any updated specifications will be deemed substituted for the above upon their being posted/made accessible at the foregoing location.

Performance throughput will vary based on different API proxy processing factors.
