

Apigee Edge for Private Cloud - Maintenance Services

Overview: The following describes maintenance services (“Apigee Maintenance”) that are provided by Google for the Apigee Edge Private Cloud licensed and/or purchased by Customer pursuant to an executed agreement (“Agreement”) between Customer and Google or between Customer and an authorized Google partner, subject to Customer being current on the payment of fees for maintenance and other fees under the Agreement. Capitalized terms not otherwise defined herein shall have the meaning set forth in the Agreement.

Key Benefits:

- **Stay Current:** Access the latest generally released updates for your licensed Apigee products, empowering you to leverage new features and enhancements.

Product, Product Documentation, and Updates

Google will provide one electronic copy of generally released updates for the specific Apigee products you are licensed to use. These updates do not include additional products or options that Google licenses separately.

Apigee Edge for Private Cloud - Release Process

Apigee’s release process is documented at:
